Adjusted Results

Fourth Quarter

Adjusted income from operations for the fourth quarter of 2016 was \$21.5 million, an increase of 11%, compared to \$19.4 million for the same period in 2015. Adjusted net income was \$9.6 million, or \$0.35 per diluted share, compared to \$6.8 million, or \$0.25 per diluted share for the same period in 2015.

Richard Holder, President and Chief Executive Officer, commented, "Our operating performance in the fourth quarter was in line with our expectation. We achieved organic sales growth in all three of our businesses for the first time in 2016 as weakness in the industrial markets modestly improved during the quarter."

Business Group Results

Autocam Precision Components

Net sales for the fourth quarter of 2016 were \$78.7 million, compared to \$75.9 million in the fourth quarter of 2015, an increase of 3.6% or \$2.7 million. Growth related to our CAFE automotive business accounted for the increase. Adjusted income from operations for the quarter increased \$0.2 million to \$9.8 million, compared to \$9.7 million in the fourth quarter of 2015.

Mr. Holder commented, "The APC group continues to execute on our strategic plan to grow our CAFE business while diversifying our precision machining business into other end markets."

Precision Bearing Components

Net sales for the fourth quarter of 2016 were \$60.4 million, compared to \$58.8 million in the fourth quarter of 2015, an increase of \$1.6 million. Adjusted income from operations for the fourth quarter was \$6.4 million, compared to \$3.3 million in the fourth quarter of 2015.

Mr. Holder commented, "The PBC team continues to achieve operating improvements driven by the NN Operating System. The organic sales growth achieved in the PBC coupled with the operational improvements made over the year are impressive and we are pleased with the performance."

Precision Engineered Products

Net sales for the fourth quarter of 2016 were \$63.0 million, compared to \$49.1 million in the fourth quarter of 2015, an increase of \$13.8 million. The acquisition of PEP, net of divestitures accounted for \$11.6 million of the increase. Adjusted income from operations for the quarter was \$14.6 million, compared to \$10.1 million in 2015.

Mr. Holder commented, "We are pleased with the performance of our PEP group. Our integration efforts are on track, we continue to see the benefits of the

execution of the NN Operating System and our investment in our sales team is starting to take hold."

Full Year 2016

Adjusted income from operations for 2016 was \$100.0 million, an increase of 52%, compared to \$65.7 million for the same period in 2015. Adjusted net income was \$39.5 million, or \$1.45 per diluted share, compared to \$32.4 million, or \$1.53 per diluted share for the same period in 2015.

Business Group Results

Autocam Precision Components

Net sales for 2016 were \$326.1 million, compared to \$328.3 million in 2015, a decrease of 0.7% or \$2.2 million. Weakness in the industrial end market accounted for the decline. Adjusted income from operations for the year increased \$1.5 million to \$44.0 million, compared to \$42.5 million in 2015.

Precision Bearing Components

Net sales for 2016 were \$248.5 million, compared to \$261.8 million in 2015, a decrease of \$13.3 million. Weakness across the industrial end market accounted for the decline. Adjusted income from operations for the year was \$27.6 million, compared to \$28.5 million in 2015.

Precision Engineered Products

Net sales for 2016 were \$258.8 million, compared to \$77.2 million in 2015, an increase of \$181.6 million. The acquisition of PEP, net of divestitures accounted for \$183.0 million of the increase. Adjusted income from operations was \$59.2 million, compared to \$11.5 million in 2015.

Mr. Holder concluded, "I am very proud of the way the team operated and followed the NN Operating System during 2016. Despite a challenging topline environment, we continued to perform and flex the business in line with our expectations."

The Company discloses in this presentation the non-GAAP financial measures of adjusted income from operations, adjusted net income and adjusted diluted earnings per share. Each of these non-GAAP financial measures provide supplementary information about the impacts of acquisition and integration related expenses, foreign-exchange impacts on inter-company loans reorganizational and impairment charges. Over the past three years, we have completed six acquisitions, two of which were transformative for the Company. The costs we incurred in completing such acquisitions, including the amortization of intangibles and deferred financing costs, have been excluded from these measures because their size and inconsistent frequency are unrelated to our commercial performance during the period, and which we believe are not indicative of our ongoing operating costs. We exclude the impact of currency translation from these measures because foreign exchange rates are not under management's control and are subject to volatility. Other non-operating charges such as, the write-off of

our interest rate swap, are excluded as the charges on not indicative of our ongoing operating cost. We believe the presentation of adjusted income from operations, adjusted net income and adjusted diluted earnings per share provide useful information in assessing our underlying business trends and facilitates comparison of our long-term performance over given periods

The non-GAAP financial measures provided herein may not provide information that is directly comparable to that provided by other companies in the Company's industry, as other companies may calculate such financial results differently. The Company's non-GAAP financial measures are not measurements of financial performance under GAAP, and should not be considered as alternatives to actual net income growth derived from income amounts presented in accordance with GAAP. The Company does not consider these non-GAAP financial measures to be a substitute for, or superior to, the information provided by GAAP financial results.

- (a) Non-GAAP Adjusted income from operations, represents GAAP income from operations, adjusted to exclude the effects of restructuring and non-cash impairment charges (related to plant closures and other charges incurred to implement our strategic goals, that do not necessarily represent a major strategic shift in operations), one-time charges related to acquisition and integration costs, intangible amortization costs for fair value step-up in values related to acquisitions, and when applicable, our share of income from joint venture operations. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating and investment recommendations of companies in the industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted income from operations, is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP income from operations.
- (b) Non-GAAP adjusted net income and adjusted diluted earnings per share, represents GAAP net income, adjusted to exclude the tax-affected effects of restructuring and impairment charges (related to plant closures and other charges incurred to implement our strategic goals, that do not necessarily represent a major strategic shift in operations), one-time charges related to acquisition and integration costs, amortization of intangibles costs for fair value step-up in values related to acquisitions and amortization of deferred financing costs, and foreign exchange gain (loss) on inter-company loans. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted net income and Non-GAAP adjusted diluted earnings per share, is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP net income.
- (c) This line item reflects the aggregate tax effect of all nontax adjustments reflected in the table above. In addition, the footnotes above indicate the after-tax amount of each individual adjustment item. NN, Inc. estimates the tax effect of the adjustment items identified in the reconciliation schedule above by applying NN, Inc's. overall estimated effective tax rate to the pretax amount, unless the nature of the item and/or the tax jurisdiction in which the item has been recorded requires application of a specific tax rate or tax treatment.
