Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company.

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

ITEM 7.01 REGULATION FD DISCLOSURE

On March 23, 2026, NN, Inc., a Delaware corporation (the "Company"), posted an updated copy of the investor presentation to its website at <https://investors.nninc.com>. The presentation will be used at the 38th Annual ROTH Conference on March 23-24, 2026, where certain officers of the Company are scheduled to participate. A copy of this presentation is included as Exhibit 99.1 to this Current Report.

Pursuant to the rules and regulations of the U.S. Securities and Exchange Commission, the information furnished pursuant to this Item 7.01 of this Current Report (including Exhibit 99.1) is deemed to have been furnished and shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. Such information shall not be incorporated by reference into any other filing of the Company under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

The Company routinely uses its investor relations website (<https://investors.nninc.com>) to post presentations to investors and other important information, including information that may be material. Accordingly, the Company encourages investors and others interested in the Company to review the information it makes public on its investor relations website.

Powering & Cooling Through Precision Solutions

Roth Conference Investor Presentation

March 2026

FORWARD LOOKING STATEMENTS

This presentation contains express and implied forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our financial outlook for the full year of fiscal 2026, the impact of, and our ability to execute, our corporate strategies and business initiatives, the potential impact tariffs, high interest rates, high metal costs and additional economic uncertainties may have on our financial statements and results of operations, and the results and timing of our strategic review process. Forward-looking statements generally will be accompanied by words such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "growth," "guidance," "intend," "may," "will," "possible," "potential," "predict," "project," "achieve," "enable," "improve," or the negative of those terms, and similar words, phrases or expressions that convey uncertainty of future events or outcomes. Forward-looking statements involve a number of risks and uncertainties that are outside of management's control and that may cause actual results to be materially different from such forward-looking statements. Such factors include, among others, general economic conditions and economic conditions in the industrial sector; competitive influences; risks that current customers will commence or increase captive production; risks of capacity underutilization; quality issues; inflationary pressures and material changes in the cost or availability of raw materials, supply chain shortages and disruptions, the availability of labor and labor disruptions along the supply chain; our dependence on certain major customers, some of whom are not parties to long-term agreements (and/or are terminable on short notice); the impact of acquisitions and divestitures, as well as expansion of end markets and product offerings; our ability to hire or retain key personnel; the restrictions contained in our debt agreements; the level of our indebtedness and our ability to obtain financing at favorable rates, if at all, or to refinance existing debt as it matures; our ability to secure, maintain or enforce patents or other appropriate protections for our intellectual property; the impact of climate change on our operations; economic, social, political and geopolitical instability, military conflict, currency fluctuation, and other risks of doing business outside of the United States; uncertainty of government policies and actions in respect to global trade and tariffs, including the potential impacts of tariffs on the United States economy, the economy of other countries in which we conduct operations and our industry, cyber liability or potential liability for breaches of our or our service providers' information technology systems or business operations disruptions. The foregoing factors should not be construed as exhaustive and should be read in conjunction with the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in NN, Inc.'s (the "Company") filings made with the Securities and Exchange Commission. Any forward-looking statement speaks only as of the date of this presentation and the Company undertakes no obligation to publicly update or reissue any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law. New risks and uncertainties may emerge from time to time, and it is not possible for the Company to predict their occurrence or how they will affect the Company. The Company qualifies all forward-looking statements by these cautionary statements.

In this presentation, we use the following non-GAAP measures: adjusted gross margin, adjusted income (loss) from operations, adjusted operating margin, adjusted EBITDA, adjusted EBITDA margin, adjusted net income (loss), adjusted net income (loss) per diluted share and free cash flow. See the Appendix to this presentation for definitions of each non-GAAP measure and reconciliations to the most comparable GAAP measure.

Investor Relations

We Deliver Precision

- Recently transformed 45-year-young company that is entering a **growth phase**
- Produces high-end specialized **metal components** and utilizes a common manufacturing platform
- Top 2 markets are **Global Automotive** and **Electric Grid & Data Center**
 - NN can produce many of the products for both auto and data center using the same production equipment. We can re-purpose and toggle
- Known for exceptional micron-level functionality and 6 Sigma “never fail” quality, many certifications

2026 Guidance

Sales \$445 - \$465 Million (+\$100+ Million JV)	Adjusted EBITDA \$50 - \$60 Million 12% Margin
Key Markets Grid, Data Center, Auto, Defense & Electronics	Customers ~700

4

9001:2015

13485:2016

BEYOND
RELIABLE.

Global Footprint Matches Auto, Grid, Data Center Markets

- **Global footprint** to serve both local customers and global customers
- **Top end markets** are **auto and electric grid / data center**
- **Top geographic markets** are **North America and China**
- **NN footprint matches the global supply chain for data center, electric grid and automotive very well**
- **~700 customers** served from **27 facilities**

2026 Guidance Calls for Record Year

- 1 Sales Guidance: \$445 - \$465M**
 - Market recovery, 100+ growth programs launching
 - Very high capex level for growth programs
- 2 Adj. EBITDA Guidance: \$50 - \$60M**
 - Growth will drive extra margins
 - \$10m cost-out and CI program
- 3 New Business Wins: \$70 - \$80m**
 - Focused on target areas
 - 2026 will also include first meaningful launches in medical and weapon components

NN is a Hardware Company that Delivers Critical Solutions from Grid-Edge to Rack-Mounted
We Provide Hardware Solutions for Powering and Cooling the Grid and Data Centers

Smart Meter Electrical Components
Electric Circuit Breaker Components
Electrical Panel Components
Electric Shielding of Components
Electric Transformer Components
Gold Plating of Electronic Components
Silver Plating of Electronic Components
Liquid Cooling of Electronic Components

NN Directly Serves This Market with Multiple Products

NN's Served Markets Are Large & Growing

NN has common engineering systems and manufacturing equipment approach that can serve multiple end-markets

End Market	Market Commentary	NN, Inc. Outlook	Share of 2025 Revenue
 Americas & Europe Auto	<ul style="list-style-type: none"> Auto part manufacturing is the largest industry in the US, with suppliers accounting for 77% of a car's value Global light vehicle production was flat in 2025 as markets adjusted to geopolitical changes and EV / ICE reset Outlook is for continued modest growth globally 	<ul style="list-style-type: none"> NN, Inc.'s auto parts business will remain stable through the forecast period as the Company prioritizes higher conviction end markets The Company's operations in China will remain strong as Original Equipment Suppliers and Tier 1s maintain tight supply chains 	
 Electrical Grid & Data Center	<ul style="list-style-type: none"> Strong data center demand vastly offsets softer residential construction in North America Growth of EVs is also causing grid capacity expansion 	<ul style="list-style-type: none"> New business focus area to increase size of the business within NN, Inc. portfolio With recent additions to its employee base, NN, Inc. is positioned to drive a 10.1% CAGR through 2030 in a highly profitable segment 	
 Commercial Vehicle	<ul style="list-style-type: none"> North American truck building is showing signs of a near-term recovery as the freight-hauling overcapacity created during the pandemic begins to dissipate from the industry The Asia market continues to exhibit strong fundamentals for growth 	<ul style="list-style-type: none"> NN, Inc.'s commanding market positions in North America, India and China are expected to help drive a 5.4% CAGR through 2030 	
 China Auto	<ul style="list-style-type: none"> Largest car exporter in the world and possesses a matching robust domestic market Manufacturing leader in EV, hybrid, and Tier 1 systems, a position supported by numerous government incentives and the sector's designation as a key industry targeted for success by the central government 	<ul style="list-style-type: none"> NN, Inc. has been growing for 20 years as a competitive supplier of drivetrain-agnostic parts Numerous new business wins launching in 2026 are expected to support a 6.9% CAGR through 2030 	
 Defense & Electronics	<ul style="list-style-type: none"> The U.S. defense budget reached a record high in 2025, focused on modernization and next-generation advancements The market is forecasted to grow to \$477 billion by 2033, driven by advancements in key areas such as AI, drones, missiles, software, guidance and precision 	<ul style="list-style-type: none"> Adding capabilities and headcount to expand market share and support 12.7% CAGR through 2030 	
 U.S. GDP-Linked Industrial	<ul style="list-style-type: none"> Near-term U.S. GDP is expected to grow, driven by strong consumer spending, with a full-year outlook of 1.5% to 2.0% 	<ul style="list-style-type: none"> New business focus area is projected to drive a 3.0% CAGR through 2030 	
 Medical Equipment & Surgical Tools	<ul style="list-style-type: none"> The U.S. medical parts market has continued to grow steadily, reaching \$200 billion in 2025 The market is experiencing strong tailwinds, supported by a growing focus on advanced and minimally invasive procedures, AI and connected devices 	<ul style="list-style-type: none"> After reentering this market in late 2023, NN, Inc. has made steady progress gaining customer approval, getting introductory orders and establishing reputation 	

New Win Program is Focused on Gaining Share with New Products

Transforming Sales Profile

- Sales growth begins in 2026
- Secured initial round of >\$200M new business wins 2023-2025
- Focus on defense & electronics, electrical grid & distribution, high-end global auto components

Investing for Growth

- 2026 capital spending will high as we implement growth programs
- Pre-Selected Markets of Electric Grid, Data Centers, Defense and Electronics, Global Auto are growing

2026 and Beyond: Consistent Top-Line Growth

- Forecasting continuous annual sales growth
- >\$800M pipeline – winning with solid hit rates
- Operating within strict cash flow profile

New Business Growth is Accelerating in 2026

Quarterly & Cumulative Wins
(at peak \$ value rates)

- \$200M of new business wins over trailing 3 years
- 27% average gross margin % on new wins
- >\$800M pipeline pursued by global team of ~40 people
- Noteworthy wins in defense, weapons, medical, data center, electronics

Rolling Program Launches
(at peak \$ annual rates)

- 2026 will be a record year of sales growth program launches
- ~100 programs expected to launch in 2026, strict cash spending
- Launches are margin accretive, strengthening sales mix
 - Stronger structural profitability, lower auto exposure

2026 Market Outlooks are Strengthening us 2025

	Market	% Sales*	NN Outlook	Comments
	Electrical Grid & Data Center	16%		<ul style="list-style-type: none">Market growing stronglyNN will see growth during 2026
	Auto – China	13%		<ul style="list-style-type: none">Production & sales remain solidIndigenous supply and China auto export
	Commercial Vehicle	13%		<ul style="list-style-type: none">Expecting market growth in 2026Global solutions in NA and China
	Defense & Electronics	10%		<ul style="list-style-type: none">NA market to remain strongNN will see growth during 2026
	Industrial	9%		<ul style="list-style-type: none">Expect US GDP+ growth rateFocused on value-add solutions
	Medical	3%		<ul style="list-style-type: none">Market to remain steady and growingDeveloped a large pipeline over 2 years
	Global Auto North America, South America, Europe	36%		<ul style="list-style-type: none">Pursuing high end applications & solutionsGoal is to hold net sales flat over time

2026 Adjusted EBITDA Guidance Will Be Record Recent Performance for NN

- New management team has established a 3-year track record of increased adjusted EBITDA, 2026 will be 4th year
- New Management team has established a 3-year track for securing new business, \$207m of awards in 10 quarters

Adjusted EBITDA (\$M)
With 2026 at Mid-Point of Guidance

★ Introduction of new management team

2023-2025 Transformation Highlights

- Transformed footprint to be more **globally competitive** – closed 4 plants, reduced ~700 people, revamping new business approach, improving on-time performance
- Grew **Adjusted EBITDA 41%** in 10 quarters and removed itself from new business holds with most customers (some remain due to credit holds)
- Revamped new business development approach and **secured >\$200m** in new programs with a 40 person team, funded with payroll savings

24%

Hit rate on closed bids, with over \$200 million of new program awards

68%

of sales retained throughout plant consolidation process

Running Ahead of Long-Term Goals

Net Sales & Adjusted Gross Margin

Adj. EBITDA & Margin

- Commercially focused on powerful pivot into high-margin, high-growth areas
- Adding next-generation equipment that can make products for multiple end-markets
- 2026 is off to a Good Start

Financial Structure & Strategic Options Review

1

Engaged with advisors for financial and strategic options review

- Need an improved capital structure for both the company and for common stock shareholders

2

Long-term, sustainable shareholder value is priority

- Pace and magnitude of improvement is constrained by capital structure

3

Strategic committee ongoing

- Open to ideas

2026 Outlook & Guidance

Net Sales of \$445 - \$465 million

- Reflects benefit of strengthening markets, new wins, data center infrastructure explosion
- Sales growth is occurring throughout the year, beginning in Q1

Adjusted EBITDA of \$50 - \$60 million

- Higher contribution margins from volume growth and good mix
- 2026 \$10m cost-out program to more than offset inflation and pricing

New Business Wins of \$70 - \$80 million

- Long term goal is \$600M of sales from market growth and new wins program
- Pipeline exceeds \$800M; key personnel targeting electrical, data centers, defense, electronics, medical

Financial guidance assumes:

- Values may vary based on metals cost
- Current FX rates

Appendix

Non-GAAP Financial Measures Footnotes

The Company discloses in this presentation the non-GAAP financial measures of adjusted gross margin, adjusted income (loss) from operations, adjusted EBITDA, adjusted EBITDA margin, adjusted net income (loss), adjusted net income (loss) per diluted share and free cash flow. Each of these non-GAAP financial measures provides supplementary information about the impacts of acquisition, divestiture and integration related expenses, foreign-exchange impacts on inter-company loans, reorganizational and impairment charges. The costs we incur in completing acquisitions, including the amortization of intangibles and deferred financing costs, and divestitures are excluded from these measures because their size and inconsistent frequency are unrelated to our commercial performance during the period, and we believe are not indicative of our ongoing operating costs. We exclude the impact of currency translation from these measures because foreign exchange rates are not under management's control and are subject to volatility. Other non-operating charges are excluded, as the charges are not indicative of our ongoing operating cost. We believe the presentation of adjusted gross margin, adjusted income (loss) from operations, adjusted EBITDA, adjusted net income (loss), adjusted net income (loss) per diluted share and free cash flow provides useful information in assessing our underlying business trends and facilitates comparison of our long-term performance over given periods.

The non-GAAP financial measures provided herein may not provide information that is directly comparable to that provided by other companies in the Company's industry, as other companies may calculate such financial results differently. The Company's non-GAAP financial measures are not measurements of financial performance under GAAP and should not be considered as alternatives to actual income growth derived from income amounts presented in accordance with GAAP. The Company does not consider these non-GAAP financial measures to be a substitute for, or superior to, the information provided by GAAP financial results.

(a) Non-GAAP adjusted gross margin represents GAAP gross profit, adjusted to exclude the effects of restructuring and integration expense and non-operational charges related to acquisition and transition expense. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating, and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted gross margin is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP gross margin.

(b) Non-GAAP adjusted income (loss) from operations represents GAAP income (loss) from operations, adjusted to exclude the effects of restructuring and integration expense; non-operational charges related to acquisition and transition expense, intangible amortization costs for fair value step-up in values related to acquisitions, non-cash impairment charges, and when applicable, our share of income from joint venture operations. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating, and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted income (loss) from operations is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP income (loss) from operations.

(c) Non-GAAP adjusted EBITDA represents GAAP income (loss) from operations, adjusted to include income taxes, interest expense, write-off of unamortized debt issuance costs, interest rate swap payments and change in fair value, change in fair value of preferred stock derivatives and warrants, depreciation and amortization, charges related to acquisition and transition costs, non-cash stock compensation expense, foreign exchange gain (loss) on inter-company loans, restructuring and integration expense, costs related to divested businesses and litigation settlements, income from discontinued operations, and non-cash impairment charges, to the extent applicable. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating, and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted EBITDA is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP income (loss) from continuing operations.

Reconciliation of GAAP Gross Profit to Non-GAAP Gross Profit and Gross Margin

<i>(in thousands)</i>	Three Months Ended December 31,	
	2025	2024
